

Stretch Fabric Counter

enduro

❖ ENDURO Stretch Fabric Counter

The ENDURO counter is an attractive workstation with versatile applications: from in-store product demonstrations to trade shows and exhibitions.

The counter can be used to display products, leaflets or other marketing materials. Alternatively it also be used as a greeting point on your exhibition stand.

It measures 40" high in order to provide a comfortable ergonomic height for standing at, or to give your audience a view of your products and literature.

The large vibrant full color dye sublimation printing on three sides is sure to draw attention and make a statement.

It delivers style with minimal effort. The durable dye sublimation fabric graphic attaches to the popup frame with Velcro and remains attached even when stored, enabling fast and efficient setup and take down.

It features a sturdy black wooden top and an internal plastic shelf for convenience. It is manufactured from aluminum, is lightweight and collapses to a fraction of its size for easy shipping and storage.

The counter is ideal for:

- Trade shows and conventions
- Product demonstrations
