

Rollup Banner Stand

estro

❖ ESTRO Rollup Banner Stand

The ESTRO roll-up banner stand is constructed from durable aluminum and has a slim triangle design with grey ends and one twist out stabilizing foot that makes the unit visually appealing.

It is lightweight, durable and very affordable - a great choice for the frequent user.

The grip top rail does not require tape, so installing and changing graphics is easy, and also helps to extend the life of the stand.

The banner stand comes in an oxford padded bag for protection and can easily be carried by its carry handle or shoulder strap from place to place.

Set up is quick and easy. Users can simply connect the pole to the base, roll-up the graphics and hook the banner at the top of the pole. The entire unit can be set up by one person.

The ESTRO roll-up banner stand is ideal for locations such as:

- Retail stores
- Shopping malls
- Car showrooms
- Trade shows and conventions
- Hotel foyers
