

Poster Hangers

asento

❖ ASENTO Poster Hangers

The ASENTO poster hangers are suitable for wall mounting and ceiling suspension. They display the advertisement to a large target audience both inside retail stores or outside with impactful, eye-catching window displays that are sure to draw the attention of passersby.

Each one of the poster hangers come as a set, including bottom and top rails. The banner hangers have the top rail to hold the graphic, and the bottom rail keeps your custom art taut to be easily readable. There are moving hangers on the top rail.

With the poster hangers it is easy to install and change graphics. Simply snap open the rail, position your graphic in the extrusion and the snap shut clamp mechanism will hold it in place. Hang any graphic on the poster snap rails, virtually anywhere.

Before creating the graphic, printing and cutting, check actual length of extrusions for accuracy.

The poster hangers are ideal for ceiling-hung, wall-mount or shop window applications and are suitable for locations such as:

- Retail stores and showrooms
- Banks and pharmacies
- Real estate agencies
- Exhibition halls
