

Sidewalk A-Frame - Plastic

❖ OLESCO Sidewalk A-Frame

OLESCO A-frames are affordable eye-catching signs aimed at targeting foot traffic from two directions.

Designed for outdoor use, these durable A-Frames are able to withstand the elements without rusting, like some other metal sandwich boards.

Manufactured from polyethylene plastic they will provide for years of use.

This A-Frame displays two 21.5"W x 27.5"H sign panels which easily slip into place and can be changed in seconds to keep the message fresh.

To install the graphics simply push the graphic up into the top slot and then slid it down into the bottom slot.

The molded-in handle and durable hinges make it easy to transport and set up anywhere a portable notice display is needed.

They are ideal for applications such as:

- Shopping malls and office buildings
- Convenience stores
- Hotels and movie theatres
- Real Estate Agents
- Exhibition and conventions
